

4Clicks IDIQ Pricing Guide

Integrate your IDIQ pricing guides for FREE into your Project Estimator without the hassle of maintaining spreadsheets.

www.4Clicks.com

You may use e4Clicks for its industry leading cost data, but you can add your own pricing or IDIQ guides as well!

One of the most convenient features of e4Clicks is the ability to integrate nearly any pricing guide. This could be a localized unit price book, a custom unit price book, an Indefinite Delivery, Indefinite Quantity (IDIQ) cost book, or any combination of these. IDIQ contracts are a popular way to execute construction work. e4Clicks fully supports your IDIQ contracts and pricing guides for small, single discipline IDIQs including:

- Demolition
- Electrical
- GSA
- HVAC
- Mechanical
- Painting
- Paving
- Roofing

By integrating all of your contracts into e4Clicks, it takes away the hassle of maintaining and updating spreadsheets. It also eliminates the possibility of making mistakes within your document.

View the comparison chart to the right to view the benefits of integrating your IDIQ pricing guides into your Project Estimator. Plus, you also get all the same features within your IDIQ guide that you do in any of the RSMMeans guides you already use.

e4Clicks Project Estimator offers the most comprehensive integration of IDIQ and industry leading cost data. The result is a single software program you can use to manage and maximize the efficiency of your construction projects. That's the 4Clicks difference.

Feature Comparison: 4Clicks vs. Excel Spreadsheet

| Feature |  |  |
|---|---|---|
| Contractor can propose bids in the same format | ✓ | ✓ |
| IDIQ book is locked down; prices cannot be changed | ✓ | ✗ |
| No hidden formulas or spreadsheet errors | ✓ | ✗ |
| Owner can complete comparison reports and technical evaluations | ✓ | ✗ |
| Quickly and easily reprice your estimates to different option years | ✓ | ✗ |
| Run queries and create an index and personal favorites | ✓ | ✗ |
| Data integrated for FREE – to both the owner and contractor! | ✓ | ✗ |
| Run all contracts (JOC, SABER, IDIQ, MATOC, etc.) in one program | ✓ | ✗ |
