

## Forecast-Cloudy with a Significant Chance of Higher Productivity

Michael Brown

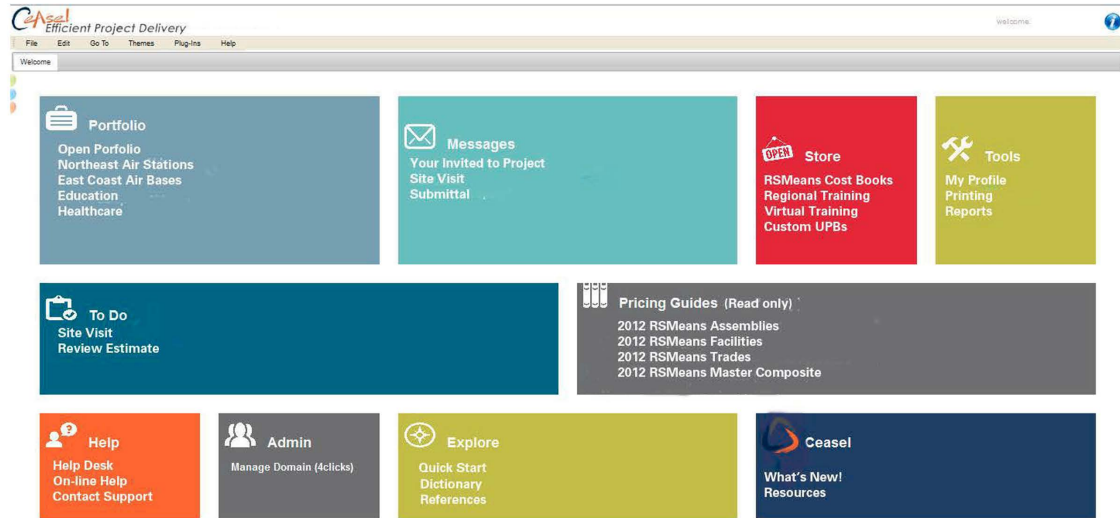

This summer 4Clicks will be introducing the first module of Ceasel™, our new fully cloud-designed product! With multiple patents pending, Ceasel brings a level of collaboration, security, and performance unavailable with traditional web or legacy database technologies.

Ceasel-Module 1 will offer unparalleled cloud access to multi-year RSMeans Cost Books and City Cost Index (CCI) information, as well as your own custom cost database(s) for the collaborative (multi-user, multi-site, multi-location, multi-language/currency) creation of estimates and projects. Schemas, totaling components and media (picture, video), basic reporting, and printing are also supported.

By an Estimator for Estimators

### Quote of the month

"In a chronically leaking boat, energy devoted to changing vessels is more productive than energy devoted to patching leaks."

-Warren Buffett

# More About

**Connecting People, Information, and Processes – Anywhere, Anytime**  
 Michael Brown

CEASEL unleashes the power of CLOUD COMPUTING to help your organization significantly enhance construction project productivity through the use of a truly collaborative, transparent, and scalable cost estimating and project management software platform. A powerful and exclusive 400,000 line item RSMeans™ cost database and the ability to add your own cost data are also core features.

Just a few of CEASEL's feature are shown in the graphics.

Collaboration	<ul style="list-style-type: none"> <li>• Anywhere in the world</li> <li>• Multi-currency</li> <li>• Multi-language</li> <li>• Estimates, Projects, Documents</li> </ul>
Security	<ul style="list-style-type: none"> <li>• Multiple data access hierarchy</li> <li>• Cloud-based information exchange</li> <li>• Data Encryption</li> <li>• Full data/change tracking</li> </ul>
Speed, Scalability, Transparency	<ul style="list-style-type: none"> <li>• Virtually instant deployment</li> <li>• Faster than traditional applications</li> <li>• On-demand usage</li> <li>• Full visibility</li> </ul>
RSMeans Cost Data	<ul style="list-style-type: none"> <li>• 400,000 line item enhancement</li> <li>• Rapid database access</li> <li>• Modifiers and full descriptions</li> <li>• Localized costs &amp; updates (CCI,Int'l)</li> </ul>

Just imagine, from a simple internet browser you can invite multiple people to view and/or work on estimates and projects... all under your control. Teams can work simultaneously in real-time, with a full audit trail/history tracking changes, authors, and timelines.

Of course, CEASEL's built in security features assure that administrators have full control over the level and type of information available to individual users or groups of users. Only invited, appropriate authorized parties can see their assigned information.

## 2012 RSMeans Cost Books – Printed Versions

Just a reminder that you can purchase your supply of printed hardcopy RSMeans Cost Books from us also, and get a 20% discount! Write up your software and book needs all on one purchase order. **And you get free shipping!** We've just setup all of your popular RSMeans cost books on [our GSA schedule](#).

# June WebCasts

## Visual Cost Estimating/QTO for JOC, SABER, IDIQ, and More!

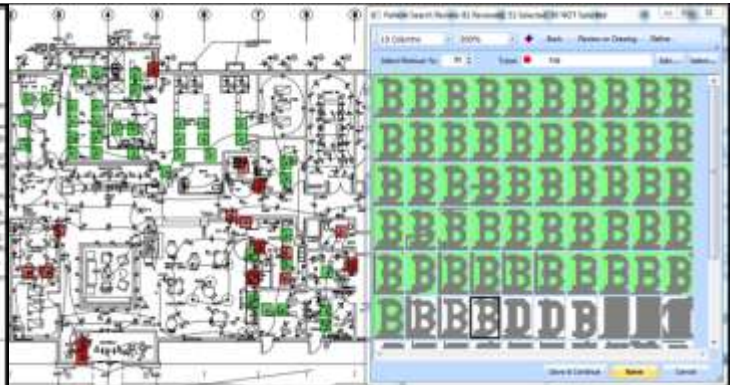

June 21, 2012 1:00PM EST

[REGISTER](#)

This series is for anyone who isn't currently using e4Clicks Project Estimator, and is interested in estimating, bidding, awarding, and managing RSMean-based Job Order Contracting, SABER, and/or IDIQ construction projects more efficiently.

Join Michael Brown, Founder and President of 4Clicks Solutions, LLC, David Snedaker, President of eTakeoff, and Bob Gair, Principal, RSMean for a discussion of a cost estimating, program management, and document management software, encompassing comprehensive visual estimating tools, specifically developed for Job Order Contracting, SABER, IDIQ, and similar project delivery methods.

Extensions, Pattern Search, and More!

## SPOTLIGHT – Topic: Project Explorer - Another Time-saving Tool

June 21, 2012 3PM EST

[REGISTER](#)

The **Project Explorer** window allows you to quickly navigate through all of the estimates and line items in all of your projects. It then provides you the ability to copy these into your Estimate and Line Items Clipboards. This basically allows you to quickly collect those estimates and line items you would like to paste into other projects and estimates. This should be yet another time-saving tool for you!

## Training 2012!

There is ONLY ONE ADVANCED TRAINING CLASS LEFT for 2012!

So, if you are ready to refine your e4Clicks Project Estimator skills, use our 'hot keys' to quickly access powerful features, and create accurate RSMeans line item estimates in minutes vs. hours, here is your last chance for 2012! Take advantage of our advanced class to refine your skills and become a power user!

Of course, our upcoming introductory classes are perfect for brand new e4Clicks users and those who could benefit from a refresher course. You can sharpen your estimating skills, learn how to better use RSMeans Cost Data, and even take a quick look at eTakeoff – an industry leading visual estimating and QTO tool.

Don't forget we are an Approved Education Provider through AACE International, so in addition to having some fun and learning new skills, you will earn Continuing Education Credits for your attendance! All regional classes are first come, first serve; so reserve your seat before we're sold out! Register Now: <http://4-clicks.com/dl/w/tc.20120101.TrainingRegistration.v4.pdf>

Again, thank you. We sincerely appreciate your business, and please feel free to contact us with any questions.

2012 TENTATIVE TRAINING DATES		
2-Day Introductory	Las Vegas, NV	Closed
2-Day Introductory	San Antonio, TX	Closed
2-Day Advanced	Las Vegas, NV	Closed
2-Day Advanced	San Antonio, TX	20-21 June
2-Day Introductory	Salt Lake City, UT	Closed
2-Day Introductory	Ontario, CA	8-9 August
2-Day Introductory	Colorado Springs, CO	17-18 October
2-Day Introductory	Orlando, FL	14-15 November

Please [email](#) us your preferences and suggestions for training locations and dates or [vote here!](#)

"First and foremost I wanted to thank you for your time and effort. The presentation you provided was superb, I feel all in attendance were fully impressed. Your expert training and coupled with the training book will enhance our engineering operation greatly."

– Program Manager

"Great class as always! You always make it enjoyable. I like the fact that you guys are always upgrading and making things better and easier."

– Air Force Project Manager

"I found your class to be very beneficial and I am sure your short cuts will save me much needed time in the future."

– Air Force Project Manager

**CEU Credits Available for 4Clicks Training Classes**

## Q & A Corner

**Q:** I heard you were updating your Construction Schedule and Progress spreadsheets, the AF Form 3064 and 3065. Is this true?

**A:** We have, and we think you will like it! Please contact Technical Support to get the new template. *It pulls in over a dozen fields from your project to save you time and effort.* The form handles both the projected schedule and progress reports.

The form calculates divisional percentages for your project automatically. The form then creates the graphical schedule based on contractor anticipated percentages for each project period. The progress reports role the actual cumulative complete percentages from period to period. The form even automatically takes the actual owner-approved completed percentages for each project period and returns them to the schedule to automatically create the actual completed graphical schedule! The anticipated and actual schedules are laid over each other and color-coded for easy comparison.

## 4Clicker Forum

[Here's a great place for you](#) - Real Property Owners, Contractors, Subcontractors, AEs, Estimators, and Project Managers - to ask questions and discuss various topic with your peers. Create your own TOPIC, or enter an existing area.

## New 4Clicks Team Members

Jessie Smith will be joining our Training and Technical Services group. He will join Bruce Sarty to help provide the best possible courses, materials, and programs to enable you to get the most out of e4Clicks Project Estimator, RSMMeans Construction Cost data, eTakeoff, and our new CEASEL cloud computing product. Jesse brings years of experience in the public works sector and CAD.

Nick Cholakis will be joining as our first dedicated Account Executive, helping to get the word out to new potential users on the value of e4Clicks Project Estimator and our new CEASEL cloud computing cost estimating solution. Nick is a recent graduate of the College of the Holy Cross, has worked an intern for 4Clicks, and earned the rank of Eagle Scout.

## Partnering with Education

4Clicks is pleased to support College and University professors and student with our premier cost estimating software and associated electronic RSMMeans Cost Data exclusively for educational use.
