4Clicks Corporate Capabilities

Line Item Cost Estimating & Project Management Solution

Mission Statement

4Clicks provides advanced solutions for the construction industry with powerful tools to connect people, information, and processes – anytime, anywhere.

About 4Clicks

We are 4Clicks, a veteran owned small business that specializes in providing cost estimating and project management software, cost data and training.

We empower Facility Owners, Contractors, and AEs to work faster, easier, and smarter. Anyone can say this; however we have spent the last 13 years doing this! By Estimators for Estimators™ isn't just our tagline. We are estimators, engineers, and project managers who have worked on both sides as DOD Owners and as construction Contractors. We have been involved in hundreds of contracts worth billions of dollars. With over 100 years of combined DOD experience, we understand what happens when it gets busy. We have been there in the month of September when there are 60 new job walks with the clock ticking away with only a few weeks to estimate and negotiate or lose the funding.

This is what makes 4Clicks the choice of 90% of USAF bases as well as rapidly growing numbers of Army installations, USACE Districts, and non-DOD Federal Owners along with their supporting Contractors. Be sure to check out our [DOD accreditations](#).

Key Differentiators

- Customer service and satisfaction – the best in the business, with a proven track record
- Expertise in Estimating and Project Management – over 100 years in combined experience
- Outstanding reputation with Owners, Contractors, Subcontractors, and AEs
- One focus: software solutions
- 3rd party champion for our strategic data providers and their associated solutions
- Technology – one software patent issued and two software patents pending!
- Clear market dominance – we are the preferred solution in the DOD sector
- Ability to enhance productivity, collaboration, and transparency

"4Clicks produces one of the best tools Air Force Civil Engineering construction and maintenance personnel use. It's fast, efficient, accurate and easy to use. It keeps you on pace with funding and project changes with little effort!"
– Owner

- Deployment by Desktop, Server, Terminal Server

"e4Clicks is fast. Quick does not adequately describe how rapidly a complete estimate can be compiled that is both accurate in scope and very informative to our clients of our intentions. Without e4Clicks, we could not support the work load per person that we currently achieve."
– Contractor

"4Clicks is the only software with Cost Data that gives me dependable estimates."
– USAF, Program Manager

"Without a doubt, e4Clicks is the most capable estimating program on the market. It allows the user(s) maximum functionality for a diverse set of contract/project types in every discipline."
– Contractor
