The Cost Estimating & Project Management Solution for Architects & Engineers!

Developed by Estimators for Estimators™, e4Clicks is a proven, fully integrated estimating and project management software product. Almost 90% of the country's Air Force Bases currently use e4Clicks, as well as rapidly growing numbers of other DOD and non-DOD federal agencies, county, state and local governments. Give your team the technology and competitive edge you need with e4Clicks Project Estimator!

We have extensive prior experience working for Owners, Contractors, Architects, and Engineers. Imagine project modeling and design, virtual plan estimating, proposal development, milestone and fund tracking, square foot and assemblies estimating, all accessible in a single software application! Plus, provide estimates in the same format and level of detail that Owners expect and are receiving from their Contractors. Learn why more Architecture & Engineering firms are using e4Clicks to provide cutting edge client services. Also, be sure to check out our DOD accreditations.

Estimating
- Break free from spreadsheet formula errors and productivity issues
- Access full line item descriptions, notes, takeoffs, crews, and pricing info
- Easily incorporate your custom line items or integrate items from any industry guide
- Manage multiple estimates within each of your team's projects

Contract Management
- Organize and track documents, milestones, inspections, and warranties, electronically and with greater accuracy
- Auto populate Government forms with project data, or create your own
- Run all of your contracts (JOC, SABER, IDIQ, MATOC, MACC, SATOC, POCA) in one program
- Automatically link your line items to your construction specifications

eTakeoff Plan Viewer
- Eliminate paper plans with powerful virtual quantity take-off, QTO, and Pattern Search
- Measure and color code counts, lengths, and quantities with ease
- Total measurements from multiple plan sheets easily
- Supports multiple file formats including PDF, DWG, and TIFF

Cost Data & IDIQ Pricing
- Access the most valuable industry leading costa data sources
- Your cost data and IDIQ custom cost books are just a click away
- Easily select a national standard cost database, as well as your own customized items
- Enjoy the most powerful, intuitive search features

Training
- Practice with hands-on training for better understanding and greater retention
- Take home training materials packed with rich, detailed information or try our virtual training from your home or office
- Classes led by cost estimators and project managers with years of experience
- Earn Continuing Education Units for class attendance
